LondonMapSF <- append_data(LondonMapSF,LondonData, key.shp = "lad15cd", key.data = "New code", ignore.d
## Data contains duplicated keys: E09000001
## Over coverage: 626 out of 659 data records were not appended. Run over_coverage() to get the corresp
```

#plot a choropleth
qtm(LondonMapSF, fill = "% Not Born in UK - 2011")

Try executing this chunk by clicking the Run button within the chunk or by placing your cursor inside it and pressing Cmd+Shift+Enter.

plot(cars)

Add a new chunk by clicking the  $Insert\ Chunk$  button on the toolbar or by pressing Cmd+Option+I.

When you save the notebook, an HTML file containing the code and output will be saved alongside it (click the Preview button or press Cmd+Shift+K to preview the HTML file).

The preview shows you a rendered HTML copy of the contents of the editor. Consequently, unlike *Knit*, *Preview* does not run any R code chunks. Instead, the output of the chunk when it was last run in the editor is displayed.
